CALENDAR ITEM SCENARIOS

17

New Meeting Posted

CREATE

Calendar Item
group, date/time,
event URL, call-in

Meeting Details Changed

UPDATE

Calendar Item
time, location, or
call-in details

Meeting Cancelled

UPDATE

Calendar Item
status → Cancelled

DOCUMENT & MATERIALS SCENARIOS

Materials / Agenda Posted to Meeting

CREATE

Library Item(s)
one per document

UPDATE

Calendar Item
add library items to
list

CREATE

Agenda Item(s) (if
identified)
appended to
Calendar Item's
agenda list

Materials and agenda items can
be posted incrementally across
runs

New RFC / Standalone Document

CREATE

Library Item
RFC, exposure draft,
report, etc.

RFCs are typically standalone —
not linked to a specific meeting

Document Revised / Replaced

UPDATE

Library Item
new URL, file, or
version

UPDATE

Calendar Item (if
document is linked
to a meeting)

NEWSREEL & KNOWLEDGE ADMIN PUSH

Human review required — nothing is pushed automatically. Dashboard "Publish" button is the gate.

Meeting Recording Available

Transcript generated → chunked by topic (stored in S3, not Bubble)

NEWSREEL

Chunks → Newsreel backend
after human approval

Document Relevant for Content

Document extraction agent runs → metadata extracted

UPDATE

Library Item
add extracted metadata

NEWSREEL Document → Knowledge Admin
after human approval
